

Villa Anni

Villa Anni's Entertainment

Some people do not want any distractions from the beauty of Orhaniye, but if you want to know what is available, here are the details:

DVD & TV

■ There is a DVD that plays European Region 2 DVDs, so you can play any favourite UK DVDs that you may bring with you. There is a selection of films in the villa.

■ There is satellite TV in the villa that should receive many Turkish channels.

MUSIC

■ There is a music centre in the villa that plays CDs and has a radio.

IPOD

■ There is an IPOD docking station to charge and play your IPOD.

BUSINESS - GRADE INTERNET

■ There is fast broadband Internet in the villa. You can take your laptop and connect via WiFi in many areas around the villa, including the verandas. The network password is in the villa welcome book. This is a business-grade fast service with **UNLIMITED DOWNLOAD**.

FREE UK LANDLINE and MOBILE CALLS

■ You can use the video phone in the kitchen to make **FREE*** telephone calls to any **UK or Turkish Telephones**. *Fair usage policy applies. This phone connects to a business telephone exchange in London using the Internet. It therefore needs a good Internet connection. If you do not get through initially or callers cannot get through to you, just leave it a while and try later when the Internet performance is better. You will find that the sound quality is much better than a normal phone.

Villa Anni's telephone number is 0203 005 2748.

This phone acts as a normal UK phone so for example to dial 01629 700596 simply pick up the handset and dial 01629 700596. To call a Turkish telephone please dial 0090 followed by the number. For example to call the Dogan Hotel dial 0090 252 487 1398. The screen is touch sensitive so you can touch and select the directory or press the 'Directory' key on the phone. The Directory contains useful contact numbers.

Callers from the UK calling the villa will only be charged for calling a London number NOT an International call.
